SUMMARY:

Freelance web developer interested in a full-time entry-level or junior development position where I can use my talents and grow in the industry. I am a recent graduate of Colorado State University with a Bachelor's of Science in their IT program. I have experience designing and modifying websites as well as optimizing site performance and SEO.

EDUCATION:

Bachelor's of Science in IT
Colorado State University – Global
2015

Associate of Arts
Aims Community College
2000

DEVELOPMENT EXPERIENCE:

Signaturestone.net
2015
I was hired to make updates to their company website as well as convert their existing site (no involvement with initial development) to a responsive layout and improve its display on mobile devices.
Site is currently active.

Thomaslunbery.com
2014-current
The website is a personal portfolio displaying my development works and skills. I designed and developed the site to current standards as well as focused on a mobile-first, responsive approach.
Site is currently active.

Ccwyd2011.org
2011
I was the principal designer/developer for a website related to a local church event celebrating the World Youth Day gathering in Madrid, Spain. I assisted with many aspects of the event including planning, logistics as well as served on the board of directors.
Site is not currently active.

Starreadymix.com
2001-2011
I was the sole designer/developer for their company website as well as handled all updates to its content and site SEO.
Site is not currently active.

Lefeverbuilding.com
2004-2007
I was hired to update content on their company website (no involvement with initial development).

Site is currently active but under new ownership.

Shopforegolf.com
1998
I was a partner/owner as well as the principal designer and developer for an e-commerce storefront that offered golf related equipment and clothes.
Site is not currently active.

SKILLS:
- HTML5
- CSS3
- JavaScript
- jQuery
- MySQL
- SQL
- SEO
- PHP
- WordPress

STRENGTHS:
- Communication
- Problem solving
- Time management
- Attention to detail
- Multi-tasking
- Team player
- Fast learner
- Sense of humor

ADDITIONAL NOTES:
My degree specialized in data management and analysis and involved database design, management and the use of analytical tools including SPSS and WEKA.

I have worked mainly with front-end technologies with limited back-end knowledge aside from database concepts.

My ultimate goal is to be a well-rounded, full stack developer with skills in all areas of development. I will continue to work hard toward attaining my goal.

I appreciate your consideration. See my work at http://thomaslunbery.com
